How does BigRed reign in  
1900hp and 251.8mph?

With **Baer Brakes** 14" rotors  
& 6-piston calipers

**6R EXTREME+**

Features & Benefits

- | Monoblock caliper is machined from a single piece of US-sourced forged aluminum
- | The only 6 piston forged monoblock offered to the road-going & street market
- | Stainless steel pistons, abutments and noise suppression springs
- | Top loaded pads for quick pad changes
- | Staggered piston sizes to minimize pad wear
- | Additional machining over the 6S to save weight (just under 2lbs)
- | Available in Front or Rear for that same cosmetic matching look
- | Uses the common D1247 (DR11) race pad backing plate for pads
- | Rear systems incorporate a drum in hat park brake
